

TERMS & CONDITIONS

Please read this document carefully; it explains everything you need to know about the terms and conditions regarding how we will deal with all customers and clients, etc., upon acceptance of our quotation to carry out work within your home or premises, etc.

1. The quoted price is valid at the time of quotation; however, it may increase if your order is placed after 28 days and is subject to installation taking place within 90 days of the contract date.
2. We have quoted the cost of all works as set out on the quotation form. In the case of a service, breakdown or call-out – our office/engineer will have given you the cost of labour and call-out charges verbally, prior to attending your property; however, this will exclude any materials. If you are not happy with the price, please do not ask us to attend as this will incur a call-out charge. Once you have accepted the quotation/verbal quotation, we agree to carry out the work in compliance with the terms and conditions set out in this document. All materials and parts are guaranteed for one year from the date of fitting by the manufacturer. However M & R Plumbing & Heating Limited may charge for labour for the replacement of any faulty materials. If you choose to supply your own materials, M & R Plumbing & Heating Limited will not be held responsible or liable for any failure to work, faulty, faults, warranty's etc. The responsibility for any such items lies with the supplier. This does not affect your statutory rights.
3. We will carry out the work set out in the quotation at the quoted price during normal working hours, i.e., 8.00am to 4.30pm, Monday to Friday. There will be an additional charge for any variations or additions to the work which you ask for or which we consider to be necessary whilst we are carrying out the work and which could not have been identified when we gave you the original quotation, in such a case we will explain to you the reasons for the extra work and inform you in advance, if possible, what the extra cost will be.
4. If any of your appliances or systems appear to have been tampered or interfered with by ANYONE or have been left in pieces, then our engineer is perfectly within his rights to refuse to have anything to do with the aforementioned appliance or system and will immediately leave your property.
5. If you want us to work outside normal working hours it may be necessary for us to make an additional charge which would be agreed with you in advance. We will require access to your home at all times whilst we are carrying out the work.
6. The time estimate provided to carry out the work is our best estimate and we will make every effort to complete the work on time, however, we cannot be held responsible for any delays which may be incurred due to adverse weather conditions or any other circumstances beyond our control. Under these circumstances we would agree an alternative date with you.
7. The quotation does not include the cost of removing any dangerous waste materials, such as asbestos. Such work is specialised and will be carried out at an additional cost, unless otherwise specified in the quotation. M&R Plumbing and Heating Limited will not be responsible for the removal of waste, debris or packaging unless otherwise stated in the quotation.
